**Concurrent Software Support during Hardware Refresh Warranty Period**

**Tier III Concurrent** **\$8,245.29**

The new hardware and software on this quote will have a 1-year manufacturer's warranty. All existing software and licensing transferred from your old system to the new system is not covered under the new warranty but must be maintained separately under concurrent software support coverage.

**Annual Post-warranty Maintenance Options:**

**Tier I - Remote Software Support Only** **\$8,380.29**

The Software Only option is a 24-hour remote maintenance and software update plan. Most problems can be corrected quickly through dial-up access into the voice logging server. If a dedicated phone line is provided, the system will also automatically report any malfunction directly to HigherGround who will then correct the problem perhaps even before it becomes evident to you. As new software features come available, they will be automatically downloaded to the system. \*If a dedicated phone line is not available, a shared line could be switched as needed (perhaps a fax line), however, automatic trouble reporting could not occur.

**Tier II - Hardware Exchange** **\$9,958.71**

Exchange service includes the software maintenance above and defective board / module exchange of otherwise warrantable parts. Parts identified by the customer as defective will be pre-shipped by Commercial Electronics for immediate replacement. On-site labor required to replace parts is provided by the customer.

**Tier III - Standard Business day On-site** **\$11,010.99**

Standard service continues the same service as that provided during the warranty period; i.e. 24-hour monitoring\*, remote\* software updates and covers all system hardware as well. Most malfunctions are typically not hard equipment failures, and can be corrected by reinitializing programs remotely. However, should an otherwise warrantable failure occur to the hardware, this plan covers all parts, labor and mileage during normal business hours. Should after-hours service be required, the customer would be responsible for additional labor charges of \$112.50 per hour.

**Tier IV - 24x7 On-site** **\$17,097.85**

Our 24-Hour service option extends the standard service to full 24-hour response for equipment failures or other situations requiring an on-site technical presence. Standard repair service is provided from 8:00 a.m. to 4:30 p.m., Monday through Friday. 24-hour service covers repair actions necessary to restore primary operation after normal business hours.

**Time and Materials**

If no Maintenance Agreement is chosen, Commercial Electronics will continue to provide service on a Time-and-Materials basis. Our current labor rate is \$225.00 per hour plus parts and applicable mileage; after hours service is billed at time and one half, \$337.50.
