CAPITAL IMPROVEMENT PROGRAM (CIP)

Process Improvement Moving Forward

- 10 Year CIP is exceeding funding capacity and not feasible to implement
- Will take a few years, but the goal is to:
Present a CIP that is feasible and realistic when looking past year 1.
- How do we get there?
 - Work on debt strategy that helps guide CIP capacity
 - Transfer reoccurring cost to operating budget
 - Increase our focus on using Master Plans to justify project need
 - Continue to update and evaluate Project Rankings
 - Help determine if a project is a “want vs need”
 - Remove projects with low rankings to a “waiting list”
 - Continue to pursue grant funding
 - Continue to delay projects that are Bond Election candidates
- Implement a web-based CIP for easier identification of projects
- Made a few changes for FY 2024; but expect significant change for FY 25 CIP

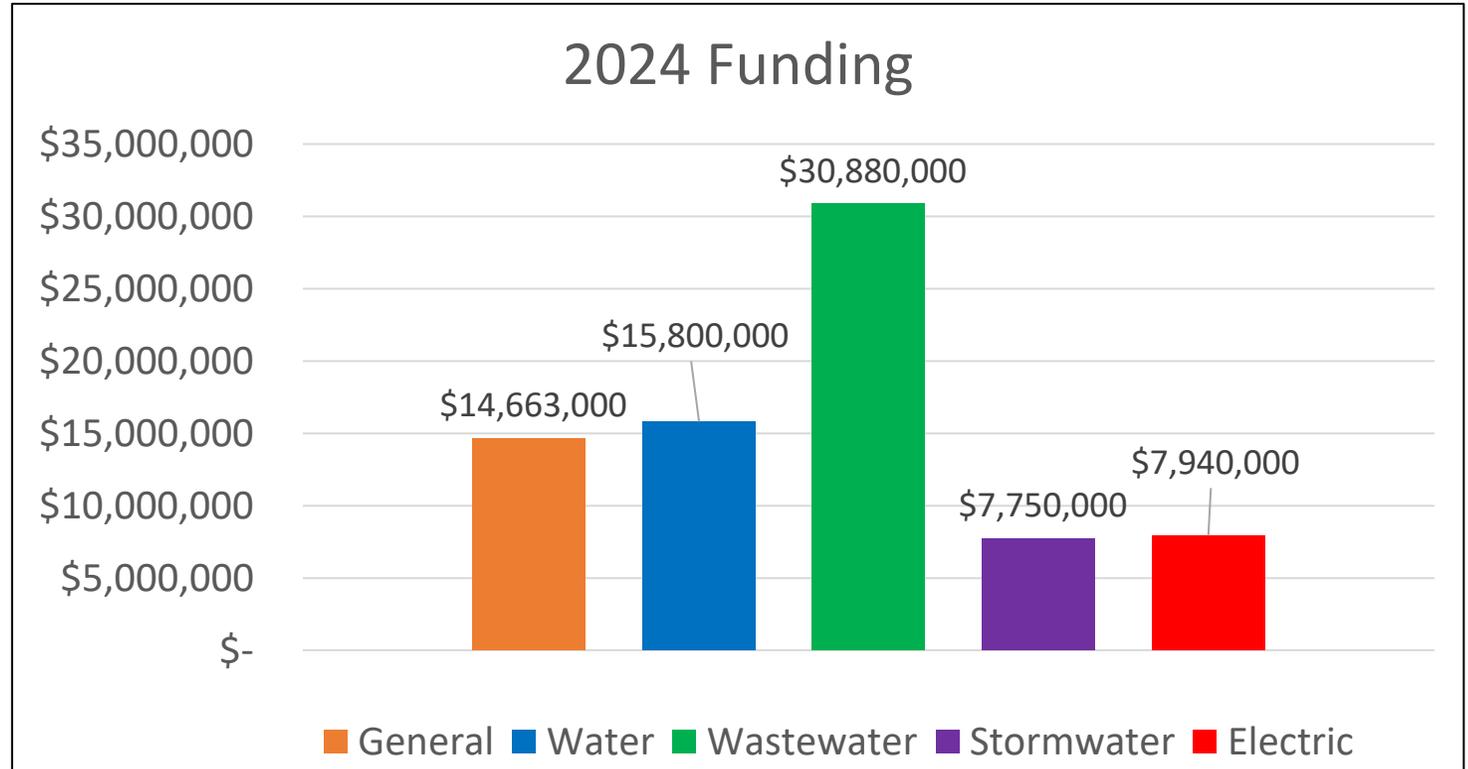

Changes to FY24 since May 2023

- **10 Year CIP Binder**
 - Digital copy is located on the Engineering & CIP webpage
 - Hardcopy is available at the Library and Engineering & CIP Dept office
- **Details of revisions are attached to the packet**
 - Updated rankings
 - Revised projects due to American Rescue Plan Funding
 - Increased funding
 - Decreased funding
 - Delayed projects

Next Steps

- FY 2024 CIP will be submitted for approval with the Budget in September
- Continue to implement process improvement discussed in Visioning for FY 2025 CIP
 - Align CIP with the budget process
 - Change messaging to public on timing of projects
 - Aggressively pursue grant/alternate funding for projects
 - Plan for future bond election
 - Delay projects as feasible until debt falls off
 - Reduce scope of CIP projects to accommodate funding constraints
